NOT ENOUGH CHILDREN

ever receive the proper balance of food to sufficiently nourish both body and brain during the growing period when nature's demands are greater than in mature life. This is shown in so many pale faces, lean bodies, frequent colds, and lack of ambition.

For all such children we say with unmistakable earnestness: They need Scott's Emulsion, and need it now. It possesses in concentrated form the very food elements to enrich their blood. It changes weakness to strength; it makes them sturdy and strong. No alcohol.

He Knew the System

There was an old geezer and he had a lot of sense;

He started up a business on a dollar eighty cents—

The dollar for stock and the eighty for an ad.

Brought him three lovely dollars in a day, by dad;

Well, he bought more goodse and a little more space

And he played that system with a smile on his face.

The customers flocked to his two-by four

And soon he had to hustle for a regular store.

Up on the square, where the people pass,

He gobbled up a corner that was all plate glass.

He fixed up the windows with the best that he had

And he told them all about it in a half-page ad.

He soon had 'em coming and he never quit

And he wouldn't cut down on his ad one bit.

Well, he's kept thinks humping in the town ever since

And everybody calls him the merchant prince.

Some say it's luck, but that's all bunk—

Why, he was doing business when the times were punk.

People have to purchase, and the geezer was wise—

For he knew the way to get 'em was to advertise.—E. F. McIntyre.

New Mexicans Get Together

Albuquerque, N. M., Oct. 13.—Four hundred exhibitors at the state fair representing every county in the state, were the guests tonight of President Robert L. Putney, of the fair association, at a get-together banquet for the purpose of organizing a state development league. Market conditions throughout the state were discussed and it developed that many of the towns in the

southern part of the state were in closer trade relations with El Paso than with any town in New Mexico. The great influence of El Paso in all southwestern districts has been made plain to the people of New Mexico by the fair, and it is often remarked from counties directly tributary or in close touch with El Paso. Before the close of the banquet, arrangements were made to make the county agricultural exhibits a permanent feature of the fair.

Taxpayers' Association Ready to Begin Work

Albuquerque, N. M., Oct. 12.—The organization office of the recently organized Taxpayers' association of New Mexico, in this city, has announced that the membership of the association has reached a point where the organization can go on with its work. Taxpayers in all parts of the state have joined the association but a vigorous campaign for members will be continued it being the idea of the officials of the association that its greatest usefulness cannot be reached without a large membership of actively interested taxpayers in every county. It is the purpose of the association to issue bulletins, or a magazine or both which will keep members informed of the work being done and its results. President H. J. Hagerman and other officials of the association will be in Albuquerque during the state fair week to give information to those interested in becoming members. Applications for membership should be sent to the organization office, Box 601, Albuquerque, N. M.
